

Ngaro

Elevated Timber Tent Platforms

The campsites feature a mix of elevated timber tent platforms and one earth node for a tent or hammock, designed to reduce ground impact while offering a stable, low-footprint base for your overnight stay. Refer to camp map for more details and locations.

Architecturally Designed Communal Shelter

Rest under a shaded space and connecting with fellow walkers, while blending seamlessly into the natural surroundings.

Kitchen Facilities

Basic kitchen facilities are available, including stainless steel benchtops and sheltered areas for meal prep - walkers must bring their own cooking gear and fuel stoves.

Loo With A View

A composting toilet is provided at each campsite, offering an environmentally friendly waste system that supports the track's low-impact design.
